{	Cloak on
}	Cloak off
R	Repair mode on

TRACTOR & PRESSOR

T	Tractor beam on/off
y	Pressor beam on/off
-	Tractor beam on
^	Pressor beam on
\$	Tractor/pressor beam off

PLANETS & ARMIES

b	Bomb planet
z	Beam up armies
x	Beam down armies
o	Orbit planet or dock to base
e	Docking permission on/off
r	Refit (change ship type)
*	Practice robot or transwarp

INFO & LOCKING

i	Info on player/planet
I	Extended info on player
l	Lock on to player/planet
;	Lock on to planet
N	Planet names on/off
V	Change local planet display
B	Change galactic planet display

WINDOWS

L	Players list on/off
P	Planets list on/off
S	Status graph on/off
?	Message window on/off
h	Help window on/off
w	War declarations window on/off
U	Rankings window on/off
/	Sort player list on/off
+	UDP window on/off
,	Ping stats window on/off
.	Netstat window on/off
\	LagMeter window on/off
`	Packet window on/off
space	special windows off
M	Shell tools window on/off
~	Sound control window on/off

MESSAGES & MACROS

E	Send distress signal
F	Send armies carried report
mA	Send message to ALL
mT	Send message to team
:	Message logging on/off
X	Enter macro mode
X?	Show current macros

SESSION

Q	Quit
q	Fast quit
=	Update all
-	Update small
	Update medium
&	Reread .netrekr

MOUSE

Left button	Fire photon torpedo
Middle button	Fire phaser
Right button	Set course

MAC CLIENT

⌘F	Fullscreen on/off
